

CXP-ARK

The AK models are known for their rugged profile design and high durability. Their fame also makes them the second popular model, just right after the AR series. However, the design and setting on current AKs are still more traditional, which makes ICS, which emphasizes human factors engineering and player experience, not that satisfied.

Therefore, based on the traditional design, ICS incorporates many modern and novel designs, and comes up with a brand new CXP-ARK, which is featured an ERGO emphasized M-LOK/1913 handguard and pistol grip, more functional and versatile stock, and equipped with trendy T-Mag windowed magazine.

CXP-ARK

New Designed
Light-weight Polymer
M-LOK Handguard

CXP-ARK is equipped with newly designed 8.5-inch industrial-grade nylon fiber M-LOK tactical handguard, which not only has solid and trendy profile that improves the overall product quality, the lightweight and sturdy design is more conducive to activities in games.

New Designed
14mm CCW
Flash Hider

The new designed CNC milling made universal 14mm CCW thread steel flash hider, gives the CXP-ARK a more modernize profile than the traditional AK.

CXP-ARK

New Ergo-Tech Textured Grip

Made of industrial grade Nylon Fiber, the ARK Ergo-Tech Tactical Grip is designed with unique ergonomics and anti-slip texture, which not only fits the hand shape, comfortable and sturdy, but also increases the grip friction. Even if it is used for a long time, it is not easy to be tired.

Short Stroke Trigger (SSS Version Only)

The Short Stroke Trigger that works with the Pre-cocking feature of the SSS E-trigger, can effectively reduce the trigger traveling distance, increase the rate of fire, and greatly enhance the shooting responsiveness and accuracy.

CXP-ARK

Smart Trigger (SSS Version Only)

The newly developed Smart Trigger that is integrated with the original SSS E-trigger system, can intelligently detect how the trigger has been pulled. In Full-Auto mode, you'll fire continuously in full-auto if the trigger is pressed continuously, and it will fire 3 round burst if you give it a single tap, which is more intuitive and convenient.

8mm Bushing Gearbox

ARK comes with an 8mm bushing third-generation gearbox, and MIM process pinion and bevel gears. Internal parts such as pistons, cylinders, gears, and motor are all available in commercially available specifications.

T-Dean Plug(Standard for SSS, MOSFET)
